EDUCATION

Farmingdale State College

Bachelor's in Computer Science | Minor in Data Science – GPA 3.6

- Relevant Coursework: Data Structures II, Software Engineering

Farmingdale, NY

Expected: May 2028

New York Institute of Technology

Bachelor's in Computer Science

- T.K. Steele Scholarship, Presidential List, CyberHack Club Member

Old Westbury, NY

2024-2025

EXPERIENCE

Adobe, Adobe Student Ambassador

June 2026- Present

- Hosted workshops and creative pop-ups to promote Adobe tools to 100+ students on campus
- Partnered with student clubs to integrate Adobe Express into their content creation workflows
- Created and shared tutorials, templates, and tips across campus social channels
- Connected with a global ambassador network across the globe

Develop For Good, Designer

May 2026- August 2026

- Translated client vision into user-centered products from concept to delivery
- Led end-to-end design process: ideation, wireframing, validation, high-fidelity design, and handoff
- Conducted UX research to inform design decisions and improved user experience
- Designed intuitive and visually engaging user interfaces (UI)
- Performed product validation and usability testing to refine solutions

2020 Companies, Field Representative

March 2026- Present

- Led in-store merchandising for major brands (Dell, Intel, Dyson, Google, HP), ensuring strong product presentation
- Managed installation and upkeep of fixtures, endcaps, and displays, including buildouts and resets
- Ensured compliance with plan-o-grams and client directives to maintain brand standards
- Managed schedules, tasks, and store relationships independently while meeting deadlines

PROJECTS

Professor Course Management System, Project Manager | Figma, Java, JavaFX, Firebase

April 2026

- Led and managed team to develop a Professor Course Management System, meant for faculty to manage courses, view rosters, and track student grades
- Built an interactive UI in Figma and implemented the application using Java and JavaFX
- Integrated Firebase and a NoSQL database to handle authentication, data storage, and real-time updates
- Developed social communication feature allowing professors to collaborate with colleagues within platform

College Building GPS, Collaborator | .NET MAUI, C#, HTML,

December 2025

- Developed a GPS application for users to navigate campus buildings and locate rooms with visual routes
- Built the application using .NET MAUI with C# and HTML for cross-platform functionality
- Implemented route visualization and indoor navigation features to improve user accessibility and wayfinding
- Designed an intuitive interface focused on ease of use for students and campus visitors
